

MANOEUVRABILITY FOR A NATURAL GARDEN

- | In high-grass meadows and ecological natural gardens, machines such as this scythe mower, which can cut meadow grass just as well as thick, matted weeds, are in particular demand.
- | The moveable grass deflector and shorter distance between the wheel and the blades considerably improve grass depositing, while the enclosed drive system on the mower deck with its specially-hardened ESM blade and height-adjustable outsoles ensure a long service life.
