

W3500 Profi

Robust commercial mower with year-round versatility at a good price

- **Extremely heavy duty construction** won't bend or break even in the toughest uses. Power steering comes standard.
- **Hydraulic Drive** - Offset pump maximizes cooling for longer service life. Only 1 part to maintain (belt from engine to pump). No adjustments, no chance of improper adjustment.
- **Rear Axle & Differential** - Ground steel gears lubricated by wet oil bath. Huge load capacity for reliable operation and long service life. Differential locking optional.
- **Hydraulic PTO** - Can be equipped with a comprehensive range of tools for lawn care, snow removal, and general clean-up around your site.

Specifications

W3532	
ENGINE	
Manufacturer, Power	Kohler, 22 HP
