

## AE401H & AE403V

(Honda® or Vanguard®)

Step up to the unique features of Billy Goat's 19" wide drum aerator and see for yourself why this is a favorite. Operators love the softest drive and tine engagement in the industry and the "Lift n Lock™" feature that allows the tines to be raised by simply lifting up on the handle.

The AE401H and Vanguard-powered AE403V eliminate cumbersome feeling of a conventional center drum found on other units on the market, which is prone to wear, vibration and damage. Instead of bulky steel weights, water weight is positioned directly over the tines when more weight and better aeration depth is needed. Thick 'O-ring' style chain maintains lubricity when not oiled and stands up to pressure washing for better durability and long life.
